

Audit confirms effectiveness of Flux Quality System

Asnaes, Denmark February 2009

During February 2009 the USA based company International Rectifiers (IR) conducted an audit to confirm Flux as partner for the future business.

The Audit went smoothly as was expected.

There were no major non-conformances raised, and the audit went on to praise the effectiveness of Flux Quality System.

The audit confirms that Flux is a quality-orientated organisation with clear goals towards achieving customer satisfaction and integrated processes that will secure continuous improvement.
